

## SYSTEM CONTEXT LOCK

Agile AI Foundation — Canonical Surface

Version: v1.0

Status: OFFICIALLY FROZEN

Freeze Date: 18 February 2026

### 1. Institutional Scope

Domain: <https://agileai.foundation>

Authority Type: Canonical Standards Authority

Document Governed: Agile AI Functional Elements v1.0

Role: Definition & Standards Layer (Non-commercial)

### 2. Officially Locked

- Six Functional Elements
- Authority language
- Governance boundaries
- Non-certifying stance
- Neutral institutional tone

No wording change without:

- Version increment
- Changelog entry
- Governance note

### 3. Authority Flow (Non-Negotiable)

Foundation defines WHAT must exist.

University explains and applies.

Assessment reflects alignment.

Reverse authority prohibited.

#### 4. Version State

Current Version: v1.0

Canonical Reference ID: AAF-FAE-1.0-2025

#### 5. Forward Doctrine

v1.1 allowed only for clarification, backward compatible.

v2.0 requires structural change, whitepaper, and archived v1.0.

Stability over novelty.

Governance over growth.

#### 6. Institutional Expansion Path

Phase 2: University Activation Layer.

Phase 3: Reflective Assessment Maturity.

Phase 4: Long-term institutional strengthening.

#### 7. Revenue Doctrine

Foundation must not sell or certify.

Revenue belongs to University and Executive Insight layers.

#### 8. Preservation Rule

Do not insert marketing CTAs into canonical surface.

Do not silently modify definitions.

Institutional drift destroys authority.

Status: Officially Frozen.
